

giantania

Musik: Michael Hofmann Text: Michael Hofmann

a capricorn is flying through space
to another atmosphere
I sit on its back, feeling cold
waiting for things to appear
happiness is all around
a bright new world in a liquid sea of joy
a misleading vision
– ugly monsters gazing at me

hey little man
tell us what are you doing here
don't be afraid
we won't do you any harm

come on
let's play together
rolling, have fun forever
come on
join our gang
helping us kill time
enjoy yourself little man

we are very pleased
to see a new face in Giantania
this is our land
do what you want
no paranoia
come on

let's play together
rolling, have fun forever
come on
join our gang
helping us kill time
enjoy yourself little man

hey little man
tell us 'bout the land you're living in
all about your life
show us everything

No, I won't say a thing
'bout the conditions we live in
please let me join your gang
I will stay for the rest of my life
won't return
don't wanna die in strive
